AIM OF THE CSRI RANKING SYSTEM

Taking Physical Education and Sport in India to global standards

NEED FOR THE RANKING SYSTEM

Building on the success of its inaugural edition, CSRI proudly presents the Second Edition of the National Ranking for Sports and Physical Education Institutions, an initiative dedicated to recognizing and promoting excellence in sports and physical education across India. While established ranking frameworks have long evaluated institutions in disciplines such as Engineering, Medicine, and Humanities, Sports and Physical Education have lacked a dedicated national benchmarking platform. CSRI seeks to bridge this gap through a comprehensive and updated ranking framework that evaluates institutions at both national and state levels. Beyond overall institutional rankings, the initiative will recognize excellence across specialized categories including Faculty, Teachers, Placements, Vocational Courses, Infrastructure, and other key areas of performance. Following the successful ranking of the Top 100 institutions and recognition of outstanding institutions, individuals, and states in the inaugural edition, the second edition aims to establish an even stronger benchmark for quality, innovation, and achievement in India's sports and physical education ecosystem.

ELIGIBLE INSTITUTES

Physical Education
Universities

Physical Education
Colleges

Sports
Universities

Sports
Colleges

University
Departments/
Faculty

Institutes offering
Sports Vocational
courses

Sports
Management
institutes

Note: This is for institutes which provides Sports and/or Physical Education courses for career opportunity

RANKING SYSTEM: OUR MISSION

- Creating an organized market for Sports and Physical Education system when it comes to higher education in India
- Identifying the Best Sports and Physical Education Institute in India across various parameters:
 - i) Quality of Infrastructure
 - ii) Research and Professional Engagements in the Institute
 - iii) Quality of Teaching, Learning and Resources
 - iv) Outreach and Inclusivity.
- v) Overall Perception of the Institute
 - Helping students and their families make an informed choice about choosing the right educational institution
 - Offering benchmarks to help reach the right target audience. Students can choose a university/institution on the basis of different parameters or dependent of region they wish to go.
 - Creating a competitive system amongst universities to improve the status of facilities and courses offered

INSTITUTIONS' BENEFIT THROUGH RANKING SYSTEM

- Recognition of Institute at national and international level.
- Competition between different universities on different parameters will encourage them to improve different facets of the institute.
- Attracting the best students & researchers to the institute and improving the existing research system.
- Strategic partnership opportunities at B2B and B2G level.
- Division of rankings at a state and zonal level will enable students and parents to choose the best university.

STEP TO INTERNATIONAL EXPOSURE:

- Receipt of Application
- Analysis and finalization of data and ranking.
- Mega Event - GSEC (Global Sports Education Convention)
 - i) International Sports Education. Business Conclave
 - ii) Award Ceremony (Unveiling of Ranking-National, Regional and State)
 - iii) B2B and B2G Meetings
 - iv) Best Research Paper Presentation
 - v) Publication of Results and Press Conference

PROCEDURE OF PARTICIPATION

- Filling of application form with registration fees
- Enclosing required documents (hard and soft copies)
 - i) Application form with registration fees
 - ii) Application fees
 - iii) Self-attested affidavits of true disclosure of facts by Registrar of University/Principal/Secretary of Management Committee
 - iv) Pictures of infrastructure: class, lab, library and other necessary

WHAT LEADERS THINK ABOUT RANKING

Mansukh Mandaviya, Union Sports Minister

In the past, many youngsters were moving in the wrong direction, but when they became connected with sports, their lives changed. Sports gives direction to young leaders and channels their energy positively. Sports develops a sense of togetherness and contribution towards the nation.

M. Venkaiah Naidu, Former Vice-President of India

Ranking provides information about the performance of Higher Educational Institutions within a competitive set up. Further, the quality assurance mechanism helps the students to choose courses and institutions on the basis of grades or ranks. It will enable them to make informed choice.

Ravi Singhania, Co-Chairman, CSRI National Committee on Sports Law and Arbitration

A well-designed national ranking framework for sports and physical education can achieve four powerful objectives – identifying and recognizing institutions, guiding parents and students towards credible pathways, raising standards that lead to better outcomes and helping in curbing the brain drain that sees many aspiring sports professionals go abroad.

Rajpal Singh, DG, Confederation of Sports and Recreation Industry (CSRI)

In an era where sports education plays a pivotal role in shaping the next generation of athletes and sports professionals, it is crucial to have a clear benchmark for excellence. The ranking system of CSRI and SAAB will serve as a lighthouse for both students and institutions, driving them towards achieving global standards in sports education and performance.
